

## Genesis Discussion Questions

1. Discuss with your group the purpose and importance of God bringing light into the world on the first day.
2. By faith, we believe that God created from nothing “ex nihilo”. How does the fact that He is the Sovereign Creator impact our daily lives?
3. God said “It is not good for man to be alone”. Were we created to be relational? Discuss the importance of real relationships (think outside of marital relationships). Can you really be a disciple maker without real authentic relationships?
4. From Gen 3:5, Satan gave Adam and Eve the impression that God was “holding something back from them”. Discuss how he is still using this tactic today.
5. Man was meant to have dominion over creation, not each other. Talk about how this misplaced dominion is manifesting itself today in our society.
6. How should the fact that we have been created in the image of God “Imago Dei” impact the way we interact with each other?
